Project

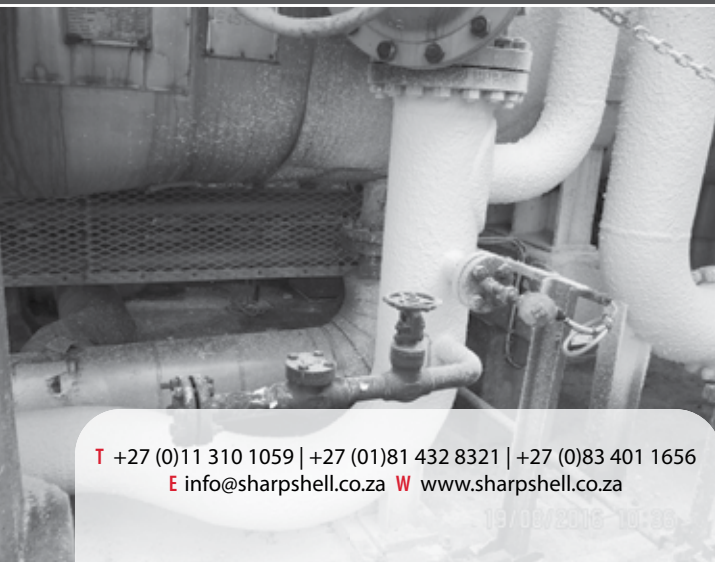

## CORROSION UNDER INSULATION

**Client**  
Engen

**Location**  
Durban

**Status**  
2016

**Service**  
Corrosion protection

### Scope

Corrosion under insulation, rope access and scaffolding.

### Short description

Sharpshell treated the corrosion under insulation across a quarter of the refinery. It used its new generation HPC coating, an insulation coating that provides corrosion under insulation protection, maximises process efficiency by providing constant substrate protection, insulates hard to insulate refinery assets thereby enhancing personnel safety.
